

ADRIAN M. FENTY  
MAYOR

CERTIFICATION OF CLEAN WATER ACT STATE REVOLVING FUND AND DRINKING  
WATER STATE REVOLVING FUND PROJECTS UNDER SECTION 1511 OF THE  
AMERICAN RECOVERY AND REINVESTMENT ACT:

I, Adrian M. Fenty, Mayor of the District of Columbia pursuant to Title XV, Subtitle A, section 1511 of the American Recovery and Reinvestment Act (P.L. 111-5 (Feb. 17, 2009)) (ARRA), certify that the projects (listed in the attachment) funded with amounts appropriated by ARRA under the heading, State and Tribal Assistance Grants to the Environmental Protection Agency, have received the full review and vetting required by law. I accept responsibility that such investments are appropriate uses of taxpayer dollars. I further certify that the information required by section 1511 concerning each such investment and this certification shall be linked to Recovery.gov and posted at <http://recovery.dc.gov/recovery/site/default.asp>.

I understand that the District of Columbia may not receive ARRA infrastructure investment funding unless this certification is made and posted.

  
Adrian M. Fenty  
Mayor, District of Columbia

## ATTACHMENT

### CERTIFICATION UNDER SECTION 1511 OF THE AMERICAN RECOVERY AND REINVESTMENT ACT

#### **Amended Clean Water Act Projects**

##### **DCWASA - Rehabilitation of Sewers, Various Locations**

This project entails the rehabilitation of combined and sanitary sewers under buildings throughout the District which were identified to be in need of structural rehabilitation. Other activities included in this project are cleaning, pre- and post-CCTV, sealing joints, and offsets. This project fixes observed structural defects and restores the structural integrity of the sewer. It will also help to reduce root intrusion and infiltration and inflow. Not implementing this project may result in possible failure of the structure in the future.

Estimated ARRA Amount: \$4,940,776

Estimated Total Cost: \$8,960,000

##### **DCWASA - Area Substation No. 6**

This project provides a new Area Substation No. 6 (ASS-6) with three feeds to replace Area Substation No. 4 (ASS-4). ASS-4 is 30 years old and obsolete. The substation has only two feeds and does not provide the necessary reliability to meet current needs. ASS-4 would become a vault for other electrical equipment. The project includes structural, HVAC, and site work required for operation of the new area substation.

Appropriate measures will be implemented to control pollution due to runoff, if any. The upgraded facility will contribute to the ability of the Advanced Wastewater Treatment Plant at Blue Plains to continue to produce the high quality effluent discharge required to maintain the water quality in the Potomac River, thereby benefiting the citizens of the District of Columbia and downstream jurisdictions.

Estimated ARRA Amount: \$6,668,837

Estimated Total Cost: \$14,909,300
